

**Amendments to the Specification:**

Please add the following new paragraph before "Detailed Description of the Invention" on page 8:

Figure 2 is a flow chart for playing a game of Baccarat having payoffs for winning tie hands.

Please add the following new paragraph at the beginning of page 14:

In Figure 2, the method of the present invention with respect to wagering or winning Baccarat tie hands is set forth. In Figure 2, method step 200 sets forth displaying the pay table 12 of Figure 1 which displays payoffs for winning Baccarat tie hands. In method step 210, the player places the Baccarat tie wager on the apparatus 10 which, as shown in Figure 1, is a game table. In method step 220, a determination is made whether the player receives a winning Baccarat tie hand during play of Baccarat. If the player does not receive a winning Baccarat tie hand, the method is over in step 230. If the player receives a winning Baccarat tie hand, the player receives a payoff according to the pay table 12 for the winning tie hand in method step 240. The method of the present invention then ends in step 230.
